

FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has greatly improved your time at home - I don't have to feel depressed by those irresponsible businessmen again. I used to call them often to clarify that I didn't agree to buy anything and I had to send their "free" sample back in post office. It wasted me A LOT OF time!!!!!!

This law of Indiana has been VERY effective: I used to receive 5 calls per week, now I receive NONE such calls. I'm really proud of living in Indiana, because not very state has this law!!! BUT I WILL LEAVE INDIANA IF THIS LAW IS PREEMPTED!!!

Thank you!
